

December is the most wonderful and magical time of year and it's almost fast approaching! From Christmas to an infinite amount of holiday movies to just resting and relaxing, December is one of my favourite months for so many reasons. One of the biggest reasons being, The India Cycle Festival.

Last year was big for the Indian cycling Industry. The first edition attracted participants and visitors in large numbers. And this year again it's back to bring the Indian cycling world together under one roof.

In 2018, the event promises to be a place for cycling enthusiasts to visit and become aware of the latest available models of hi-ended bicycles.

The event will not only get you up close to some of your favourite bicycle brands like the Trek, Scott, Cervélo, Colnago but also make you meet renowned personalities in the Indian cycling world.

When we asked Partha, the founder of India cycle festival, he stated that *"The second edition of the India cycle festival will be way bigger than the first. This year, we have roped in more brands and personalities and will surely make ICF more interactive and entertaining"*

More details:
